

# TET55 THERMOSTAT

- **Semiconductor temperature sensor**  
55°C, solid state reliability
- **High current mosfet switch**  
20 amp continuous, 50 amp surge
- **L.E.D. Light**  
Indicates fan running
- **Automatic self test**  
Operates fan for 5 seconds at ignition switch on
- **Deutsch DT sealed connector**

**Minimum voltage 9**

**Maximum voltage 30**

**½ Inch BSP thread**

**Red** +ve Battery (20 amp fused)

**Black** -ve Battery

**Brown** Fan +ve

**White** Fan -ve

**Yellow** Ignition power

**Transport Electronics**
